THE

MERCANTILE NAVY LIST

AND

MARITIME DIRECTORY

For 1871.

COMPILED FROM OFFICIAL AND OTHER SOURCES BY

JOHN J. MAYO, Esq.,

REGISTRAR GENERAL OF SHIPPING AND SEAMEN.

LONDON:

WILLIAM MITCHELL, 54, GRACECHURCH STREET.

THE MERCANTILE NAVY LIST.

IN compliance with the general desire of the Shipping and Commercial Interests, an alteration has been made in the arrangement of the Mercantile Navy List. The Steam Ships have been separated from the Sailing Ships, and details respecting the build and dimensions of all Steam Ships registered at Ports in the United Kingdom and the British Possessions abroad are given down to the latest date.

Although the greatest possible care has been taken in the compilation of this work, it is possible that some typographical errors may have crept into the present Edition. Should any such be discovered, the Editor would feel greatly obliged by their being pointed out.

The Mercantile Navy List and Maritime Directory will be issued annually, with the alterations and additions which, from year to year, the official registers present, and will form a useful book of reference for Insurers, Merchants, Shipowners, Shipbrokers, and others.

January 1871.

NOTICE.

The International Code of Signals.

The establishment of one uniform system of Signalling at sea has for some time past occupied the attention of the leading maritime powers. The Governments of France and Great Britain have, as was done by them in the case of steamers' lights some years ago, brought the subject before the Governments of the principal maritime powers, and have recommended the adoption of the *International Code of Signals* as the universal means of communication between the Ships and Signal Stations of all nations.

This Code is used on board Her Majesty's ships,* and has been adopted by all the principal maritime powers for their Imperial as well as for their Mercantile Navies; viz. :—

England.	Greece.
†France.	†Italy.
America.	†Austria.
†Denmark.	†Prussia.
†Holland.	Spain.
†Sweden.	†Portugal.
Russia.	Brazil.

The Code being so universally adopted, and the necessity being apparent that the officers and men of the British Mercantile Marine should be familiar with its use, the Lords Commissioners of the Admiralty have ordered that all men belonging to the Royal Naval Reserve, who act as Masters and Mates of ships, are to be instructed in its use; and the Board of Trade, on the recommendation of the Committee for managing the affairs of Lloyd's, have directed that all Candidates for Masters or Mates Certificates of Competency must in future pass a satisfactory examination in the "International Code of Signals for the use of all Nations."

This is the *only Code* now used at the Signal Stations on our Coasts, and at the Signal and Semaphore Stations of other countries, and the officers at these stations have *no means of understanding or signalling by any other Code.*

* The Admiralty have informed the Board of Trade that Marryatt's Code is no longer supplied to Her Majesty's Ships.

† Translations of the Code have been made by these Governments.

Cases have been reported in which officers at the Signal Stations have hoisted the International Code Signals to ships, warning them of danger, but it was afterwards found that the Ships were not provided with the means of understanding the Signals made, and in two cases the vessels are known to have been lost from this cause. It is, therefore, important that shipowners and shipmasters should see that their ships are provided with the means of signalling by this Code, which is so universal, and that their officers are familiar with its use.

If a ship is proved to be lost in consequence of there being no means on board for *making* or *interpreting* an International Code Signal, it may become a question with Underwriters and Insurers whether the ship could, strictly speaking, be deemed *seaworthy* without these necessities on board. Indeed there are several of the Ship and Insurance Societies which require this Code of Signals to be carried as a means of "seaworthiness."

The cost of providing a ship with the extra flags and with the *International Code* Signal Book is trifling, and the task of becoming acquainted with its working an easy one.

The Code List.

This list forms an Appendix to the *International Code of Signals*, and is prepared for the purpose of enabling officers at Signal Stations on shore, and Masters of ships at sea, to signal and report passing ships. It is published annually, and contains to the date of its publication the name and distinguishing signal of every British registered vessel to which a *Code* Signal has been allotted; the price of the Code List is 5s.

A list of those ships to which signal letters have been granted during the preceding week is published in the Shipping Gazette every Tuesday, and quarterly supplements are issued to enable Masters of ships, previous to making a voyage, to supply themselves with a complete list of ships having the distinguishing Signals. The Code List also contains some useful Hints to Candidates for Masters or Mates Certificates in pointing out the principal features of the International Code.

Application for Signal Letters.

Application for the allotment of the *Code* Signals for ships belonging to the United Kingdom should be made to the Registrar General of

Shipping and Seamen, 6, Adelaide Place, London Bridge, and for ships belonging to the Colonies, to the Registrar of Shipping at the port to which the ship belongs.

As it is important that the signal letters, when appropriated to any vessel, should in all cases be *marked upon the ship's Certificate of Registry*, the Certificate should be forwarded with the application, if possible.

Signal Stations for the International Code.

Signal Stations have been established, with the approval of Her Majesty's Government, at some of the most important points on the coasts of the United Kingdom, and it is in contemplation to establish others where experience may prove them to be necessary or desirable.

The Signal Stations already established are as follows:—

Aldborough.	Yarmouth (Isle of Wight).
Bridlington.	St. Catherine's Point (I. of W.).
Flamborough Head.	*Prawle Point (near the Start).
Grimsby.	Penzance.
Yarmouth (Norfolk).	Scilly Isles.
Broadstairs.	Roche's Point (Queenstown).
Deal.	Holyhead.
Dover.	Caldy Island (Tenby).
Dungeness.	

and it is now under consideration to establish Signal Stations at some of the most prominent lighthouses, &c. on the coast of Ireland.

At these Signal Stations the International Code is the *only* Code recognized, and vessels of any nation which make their names known by means of this Code on passing these stations will be reported in the *Shipping Gazette*.

At present the duties of the officers at the Signal Stations will be limited to forwarding *reports of vessels passing*, for publication in the *Shipping Gazette*, but as the telegraph system is now extended, these Signal Stations may be made still more useful, to the mercantile marine of this country, as the means of forwarding urgent messages from the owners to their ships, or vice versa.

Signal Stations have also been established on the coasts of France and Italy (see list in Signal Book) and other foreign countries, as well as on the more prominent points of the coasts of the Indian Empire and the colonial dependencies of Great Britain.

* Ships making their names known to the Signal Station at Prawle Point are reported immediately by private telegraph to the *Shipping Gazette*.

From many of these stations, such as the Straits of Sunda, Straits of Messina, Gibraltar, Saint Helena, Ascension, Cape Point (Cape of Good Hope), Heligoland, Elsinore, Palais (Belle Isle), &c., reports of ships passing are forwarded for publication in the "Shipping Gazette."

Her Majesty's Government are now making arrangements for obtaining from Foreign Governments similar reports for publication in the *Shipping Gazette* of all British ships passing Foreign Signal Stations, in exchange for reports of their vessels passing ours.

Reports by Ships.

The Lords Commissioners of the Admiralty, with a view of benefiting the mercantile marine interests of this country, have directed officers commanding Her Majesty's ships to report every merchant vessel signalled or spoken at sea by the *International Code of Signals*, and to forward the reports to England as opportunities offer. These reports will be published in the *Shipping Gazette*.

Masters of *Homeward bound* merchant ships are particularly requested in passing *Outward bound* ships to hoist the International Code Signal "B.II." *Vessels that wish to be reported all well, show your distinguishing Signals*, and to report the distinguishing signals or names of the outward bound to the Registrar General of Seamen, Adelaide Place, London Bridge, for publication in the *Shipping Gazette*. Forms for this purpose, G.R. 30^c, may be obtained on application to the Registrar General of Seamen.

THOMSON & SON,

MANUFACTURERS

OF THE

COMMERCIAL CODE OF SIGNAL FLAGS.

THE "CODE SIGNAL,"

AND "ANSWERING PENDANT."

THE BOARD OF TRADE strongly recommend to Shipowners the use of the COMMERCIAL CODE OF SIGNALS (which have been prepared under their direct authority), as superior to any of the Codes at present in use. They have also been recommended for the adoption of the Merchant Navy by the *Committee of Lloyd's*, and by the *Shipowners' Societies of London and Liverpool*, and are favourably noticed by the various Local Marine Boards. Ships carrying Troops, Emigrants, or Government Stores, are required to take them. All Government Vessels carry them, and report such ships as communicate their Official Numbers.

THOMSON and SON always keep COMPLETE SETS on hand of these Flags, which may be had of the following sizes:—

The Set of 19 Flags in Bag.

Small Size.		Medium.		Large.
SIZES OF FLAGS .. 6 by 4½ feet.	..	7 by 5 feet.	..	8 by 6 feet
PENDANT 3 by 11 feet.	..	4 by 13 feet.	..	5 by 16 feet

They also supply the EXTRA FLAGS to adapt MARRYAT'S to this Code; and Ships not carrying either Code, but desirous of reporting their OFFICIAL NUMBER, can have the FOUR FLAGS for that purpose.

ENSIGNS, UNION JACKS, AND MARRYAT'S SIGNALS KEPT IN STOCK.

HOUSE AND OTHER FLAGS MADE TO ORDER.

MARRYAT'S SIGNALS LETTERED AND ADAPTED TO THE COMMERCIAL CODE

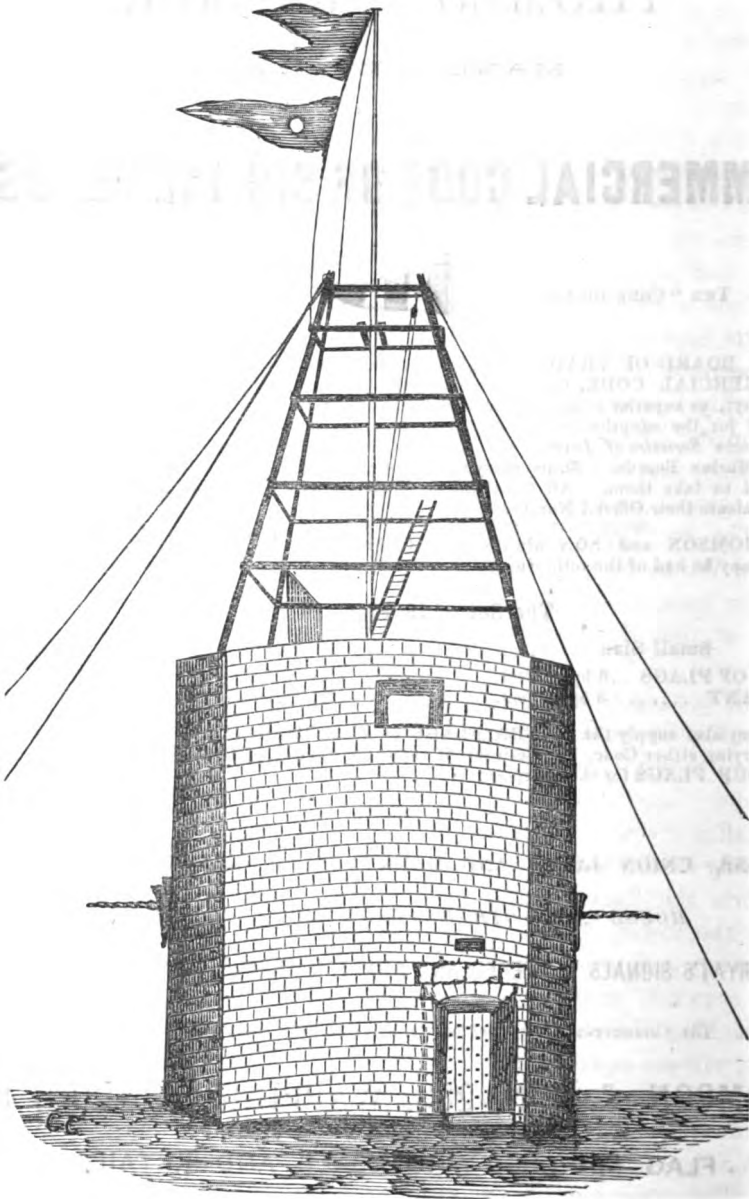

The Commercial Code Book and the Mercantile Navy List Supplied.

THE
"SHIPPING GAZETTE" SIGNAL STATION
ON THE SCILLY ISLES.

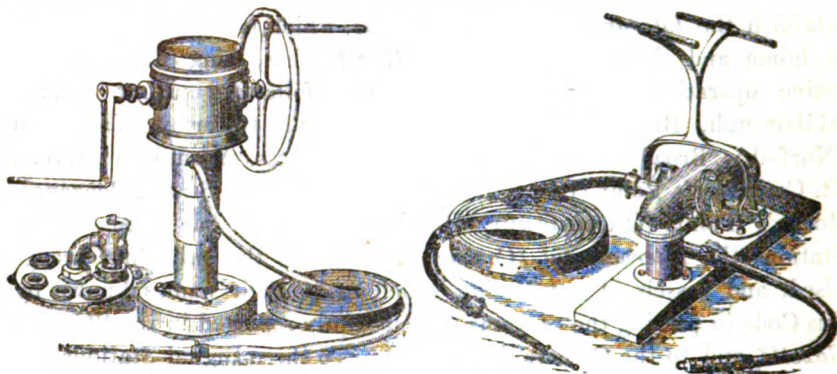

The "Shipping Gazette" Signal Station on the Scilly Isles.

With a view to facilitate the reporting of ships from the most important points on the Coasts of the United Kingdom, and to establish the *International Code of Signals*, which is now in general use at home and abroad, the *Shipping Gazette* has, long since, had in active operation Signal Stations at the following places, viz.:—Aldborough, Bridlington, Flamborough Head, Grimsby, Yarmouth (Norfolk), Broadstairs, Deal, Dover, Dungeness, Yarmouth (I.W.), St. Catherine's Point (I.W.), Prawle Point (near the Start), Penzance, Roche's Point (Queenstown), Holyhead, &c. At all these Signal Stations the *International (Commercial) Code* is the only Code recognised, and vessels of any nation which make their names known by this Code in passing the Stations, are promptly reported in the *Shipping Gazette*, and to the Owners, if required. To these Signal Stations has just been added one of considerable importance to vessels approaching the Scilly Islands, or which may be driven near there for shelter. A Station, which is represented in the above sketch, is now in full operation, and ships signalling by the *International Code* are reported, by telegraph, by a special Correspondent appointed for the purpose.

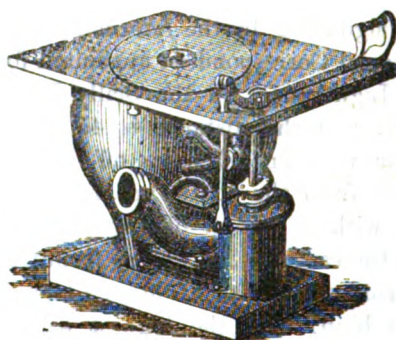

The St. Agnes Lighthouse, on the Scilly Isles, bears from the Lizard W. by N. $\frac{1}{2}$ N., and the distance is 45 miles. These islands may be seen, in clear weather, 20 miles off, and when approaching them at that distance from the southward, from 58 to 62 fathoms of water will be found with a bottom of grey sand and bits of shells. Vessels coming from the eastward, as well as from the southward, may run in for the southernmost point of St. Mary's Island, called Peninnis Point, a conspicuous bluff. On the highest part of this point the *Shipping Gazette* Signal Station is placed. The tower on which the flagstaff is erected is marked on the new Charts as OLD MILL, and will be easily distinguished from seaward by the black framework which supports the flagstaff, and by two small black arms about half-way down the tower, by the tower itself being painted black and white alternately in four perpendicular patches—a white patch facing the S.E. from seaward, and a black patch facing the S.W. Therefore vessels approaching the point from about due south, which is the best and safest, will see equal portions of the black and white on the tower, and may, when they have a commanding breeze, go within half a mile of the point; and, by hoisting their Signal Letters, ships are telegraphed to the *Shipping Gazette* Office, and published in that Journal the same day. The same reports are also forwarded direct to the Owners, if required.

HUBBUCK'S PATENT WHITE ZINC PAINT.

The most durable and beautiful Paint known, is cheaper than White Lead, and is proved to be superior for all purposes than the pernicious Lead Paint, in all climates. It is especially adapted for painting Iron, as, by virtue of a semi-galvanic action, it enters the pores and protects the Iron from decay. It should be used instead of Red Lead, which is proved to be destructive to Iron exposed to Salt Water. Its whiteness is unaffected by bilge water, boiling sugar, or noxious gases. It is free from any poisonous ingredient, and suited in all respects to the use of the painter. Each Cask of pure White Zinc is stamped "HUBBUCK, LONDON PATENT."

THOMAS HUBBUCK & SON, **WHITE LEAD, OIL, PAINT, & VARNISH WORKS,** **24, LIME STREET, LONDON.**

Among other tests to which it has been subjected, has been that of Painting the hold of a sugar vessel, which after a voyage to St. Kitt's and back, is found, after washing, to be as white as the first day the paint was applied.—*John Bull, September 11th, 1850.*

IRON SHIPS.

Extract from the Report of NATHAN MERCER, Esq., F.C.S.

7, CHURCH STREET, LIVERPOOL, April 6th, 1860.

On Saturday I visited the iron ship "William Fairbairn" for the purpose of ascertaining whether or no her plates had been affected by the red lead with which she was coated previous to her late voyage to Calcutta. She was in the hands of the scrappers, and showed the great extent to which the iron had been corroded: patches of rust protruding through the paint, and being thickly spread over the unscrapped portions. The red lead coating was covered with blisters, from each of which, on being opened, a clear fluid escaped, and left exposed on the surface of the iron a number of brilliantly shining crystals of metallic lead, and that they were formed at the expense of the iron, was evident from the corroded and pitted appearance of the plate beneath every blister. The fluid from the blisters is produced by the combination of the chlorine of the sea water with the iron of the ship, showing that the "sweat," so well known to every person interested in iron ships, is not salt water, but a solution of chloride of iron. On those portions which had been scraped this "sweat" was exuding from every pore; and on looking along the surface, myriads of glittering particles of lead were seen. The injurious effects produced by red lead were unmistakable and self evident.

HUBBUCK'S ANTI-OXIDATION COMPOSITION.

For Coating Iron and Wood Ships' Bottoms; a preservative against fouling and corrosion. This Composition is ready for immediate use, and obviates the waste of carrying unmixed Paints, Oils, Dryers, &c. It is also applicable to all purposes of other Paints.

DR. J. COLLIS BROWNE'S CHLORODYNE

THE ORIGINAL AND ONLY GENUINE.

ADVICE TO INVALIDS.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary aching of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. COLLIS BROWNE (Member of the College of Physicians, London), to which he gave the name of

CHLORODYNE,

and which is admitted by the Profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for COUGHS, CONSUMPTION, BRONCHITIS, ASTHMA.

CHLORODYNE effectually checks and arrests those too often fatal diseases DIPHTHERIA, FEVER, CROUP, AGUE.

CHLORODYNE acts like a charm in DIARRHŒA, and is the only specific in CHOLERA and DYSENTERY.

CHLORODYNE effectually cuts short all attacks of EPILEPSY, HYSTERIA, PALPITATION, and SPASMS.

CHLORODYNE is the only palliative in NEURALGIA, RHEUMATISM, GOUT, CANCER, TOOTHACHE, &c.

From Lord FRANCIS CONYNGBAM, Mount Charles, Donegal, December 11th, 1863.
from Mr. DAVENPORT, and has found it a most wonderful medicine, will be glad to have half-a-dozen bottles sent at once to the above address.

* Earl Russell communicated to the College of Physicians that he had received a despatch from her Majesty's Consul at Manilla, to the effect that Cholera has been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE.—See *Lancet*, Dec. 31, 1864.

CAUTION.—BEWARE OF PIRACY AND IMITATIONS.

CAUTION.—Vice-Chancellor Sir W. PAGE WOOD stated that Dr. J. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the Defendant, Freeman, was deliberately untrue, which, he regretted to say, had been sworn to.—See *Times*, 18th July, 1864.

Sold in Bottles at 1s. 1½d., 2s. 9d., 4s. 6d. None is genuine without the words, "DR. J. COLLIS BROWNE'S CHLORODYNE" on the Government Stamp. Overwhelming Medical Testimony accompanies each bottle.
